You can record a minimum of 1 second of voice info, and a maximum of 60 seconds. The .WAV file is a small thing, and will take away very little from your storage card memory. Most of the voice files I record are about 12K in length, and if I get a bit more verbose, might go up to 60 or 70K.

Nikon D2x - Recording Voice Memos - Tips & Tricks from

Second, note well that committee Republicans voted to release both memos, whereas committee Democrats voted only to release their own. It looks like one party is confident about the conclusions Americans can draw from having all available information, whereas the other didn't want any of this to come out in the first place.
