

a primer of analytic pdf

In mathematics, an analytic function is a function that is locally given by a convergent power series. There exist both real analytic functions and complex analytic functions, categories that are similar in some ways, but different in others. Functions of each type are infinitely differentiable, but complex analytic functions exhibit properties that do not hold generally for real analytic functions.

So let's talk about rubrics for a few minutes. What we're going to do here is describe two frequently used kinds of rubrics, holistic and analytic, plus a less common one called the single-point rubric (my favorite, for the record). For each one, we'll look at an example, explore its pros and cons, and provide a blank template you can use to create your own.
