Great Circle Sailing Great Circle Sailing is used for long ocean passages. For this purpose, the earth is considered a perfect spherical shape; therefore, the shortest distance between two points on its surface is the arc of the great circle containing two points. As the track is the circle, so the

From land youâ€™ll see the white sailâ€™s progress against the curve of Great Island, slow but inexorable, the way the tide darkens the sand, or the way clouds drift floating south. The tip of the sail is like the pointer on a gauge, which says time is filling up with life till itâ€™s full, the way the sail is full, and begins to move. Somewhere.
