This paper gives a critical review of 25 years of critical accounting research on gender, addressing what we have learned to date and what are the most challenging areas to be investigated in the future.

Accounting as gendering and gendered: A review of 25 years

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
