CIT 844 ADVANCED DATABASE MANAGEMENT SYSTEM 2009 Page | vi Course Aims The overall aims and objectives of this course will help you to: 1. Develop your knowledge and understanding of the underlying principles of Relational Database Management System 2. Build up your capacity to learn DBMS advanced features 3.

COURSE CODE: CIT 844 COURSE TITLE: ADVANCED DATABASE

A database is a collection of the different phenomena that we are interested in, in an organised unit. The point is that a database is neither a data bank, nor the unorganised unit of files. Steps of a mode-based database administration: We create the entities along with their properties. We establish the relationship between them.
