(PDF) A general classification of agroforestry practice

Agroforestry is a very complex subject; indeed, it is an amalgam of many subjects. For centuries, agroforestry has been artfully practiced throughout the world, especially in the developing countries of the tropics. Lately, the underlying principles of these time-tested practices, as well as the scope for

An Introduction to Agroforestry - World Agroforestry Centre

Abstract. The interdisciplinary program in agroforestry was established at the University of Florida's Institute of Food and Agricultural Science in 1987 in response to the growing interest in the subject among students and faculty members from different units of the university.
