

### **allergic and non allergic pdf**

Hello doc, You have a fabulous and very informative website. I have a couple questions related to my 5 year old: 1. He has had stuffy nose and morning cough since he was 2 or 3 years old.

### **When Your Allergic Rhinitis is NOT Allergic: Non Allergic**

Allergies, also known as allergic diseases, are a number of conditions caused by hypersensitivity of the immune system to typically harmless substances in the environment. These diseases include hay fever, food allergies, atopic dermatitis, allergic asthma, and anaphylaxis. Symptoms may include red eyes, an itchy rash, sneezing, a runny nose, shortness of breath, or swelling.

### **Allergy - Wikipedia**

Rhinitis, also known as coryza, is irritation and inflammation of the mucous membrane inside the nose. Common symptoms are a stuffy nose, runny nose, sneezing, and post-nasal drip.. The inflammation is caused by viruses, bacteria, irritants or allergens. The most common kind of rhinitis is allergic rhinitis, which is usually triggered by airborne allergens such as pollen and dander.

### **Rhinitis - Wikipedia**

Persistent rhinitis typically causes sneezing and a blocked, itchy and runny nose. An allergy is a common cause but there are also non-allergic causes. Treatment options include avoiding things that cause an allergy, an antihistamine nasal spray, antihistamine tablets and a steroid nasal spray.

### **Persistent Rhinitis. Allergic and non-allergic Persistent**

The cytoplasm of mast cells contains organelles: lipid bodies where metabolism of arachidonic acid occurs and where the products of this metabolism, including leukotrienes, are stored. 14 Cytokines and histamine are other products found in mast cells organelles (). These organelles are prone to exocytosis and extracellular release of mediators.

### **The role of mast cells in allergic inflammation**

An allergy is a reaction by your immune system to something that does not bother most other people. People who have allergies often are sensitive to more than one thing.

### **Allergies | Allergy Symptoms | MedlinePlus**

Allergic rhinitis is a common and chronic immunoglobulin E-mediated respiratory illness that can affect quality of life and productivity, as well as exacerbate other conditions such as asthma.

### **Treatment of Allergic Rhinitis - - American Family Physician**
