Amusement Park Physics with a NASA Twist

Amusement Park Physics is an educational approach to teaching fundamental physics concepts using an amusement park as a laboratory. Many variations of such activities have been conducted across the country over the last two decades. The USU Physics Day at Lagoon is the first such activity in the Intermountain Region.

to collecting data at an amusement park, including specific directions for data collection with Vernier equipment. While most references will be to collecting data on roller coasters, the discussion applies equally to other rides one encounters at an amusement park. Interpreting data gathered at the amusement park is a learned activity.

Data Collection at the Amusement Park - iPage

This interactive exhibit, part of the Exhibits Collection, explores how the laws of physics play a role in the design of amusement park rides. Activities in the exhibit invite visitors to design a roller coaster and determine the outcomes of bumper car collisions. The exhibit also includes related Web sites.
