The Annual Review of CyberTherapy and Telemedicine (ARCTT) is a peer-reviewed journal covering a wide variety of topics of interest to the mental health, neuroscience, and rehabilitation communities.

Annual Review of CyberTherapy and Telemedicine, Volume 3

Cybertherapy has started to make progress in treating a variety of disorders, but more work is needed in a number of areas, including the development of easy-to-use and more affordable hardware and software and objective measurement tools, the need to address potential side-effects, and the implementation of more controlled studies to evaluate cybertherapy in comparison to traditional therapies.

IOS Press Ebooks - Annual Review of Cybertherapy and

1. Critical Reviews: These chapters summarize and evaluate emerging cybertherapy topics, including technology-enhanced rehabilitation, Interreality, and Intersubjectivity. 2. Evaluation Studies: These chapters are generally undertaken to solve some specific practical problems and yield decisions about the value of cybertherapy interventions; 3.
