

astrobiology exploring life in pdf

Abstract The search for the origins of life and its presence beyond Earth is strengthened by new technology and by evidence that life tolerates extreme conditions and that planets are widespread. Astrobiologists learn how planets develop and maintain habitable conditions. They combine biological and information sciences to decipher the origins of life.

Astrobiology: Exploring the Origins, Evolution, and

Astrobiology: Science Learning Activities for Afterschool was produced by the American Museum of Natural History (AMNH) as part of a 18 month study and demonstration project funded by NASA.
