Critics have pointed out that no continuous sequence of PÃ©rigordian occupation has yet been found, and that the tradition requires it to have co-existed separately from the Aurignacian industry rather than being differing industries that existed before and afterwards.

### **PÃ©rigordian - Wikipedia**

Group foraging can thus reduce an animal's foraging payoff. Group foraging may be influenced by the size of a group. In some species like lions and wild dogs, foraging success increases with an increase in group size then declines once the optimal size is exceeded. A myriad number of factors affect the group sizes in different species.
