Context Migration trends in the Americas. Migration is not a new phenomenon, despite its seemingly sudden rise to global attention. The movement of people, whether within country borders or across international borders, has been occurring for centuries and has recently become a major feature of globalization.

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
