

burn for burn pdf

First-Degree Burns: First-degree burns involve the top layer of skin. Sunburn is a first-degree burn. Signs:
• Red
• Painful to touch
• Skin will show mild swelling
Treatment: • Apply cool, wet compresses, or immerse in cool, fresh water. Continue until pain subsides. • Cover the burn with a sterile, non-adhesive bandage or clean cloth.

Burns - Centers for Disease Control and Prevention

Burn Management (continued) Healing phase • The depth of the burn and the surface involved influence the duration of the healing phase. Without infection, superficial burns heal rapidly. • Apply split thickness skin grafts to full-thickness burns after wound excision or the appearance of healthy granulation tissue.

Management of Burns - WHO
