These steps are applied to a variety of business contexts, including securities analysis, credit analysis, merger & acquisition decisions, and governance. The book includes a broad range of classic and new HBS cases to illustrate the concepts and applications.

## **Business Analysis and Valuation: Using Financial**

A business valuation is a business process used to determine the total worth of a particular business or company. Since a business owner doesn't exactly know the amount of his business, a business valuation report is issued to deliberate and analyze the business' components in order to arrive at a specific cost of the business.
