

business process reengineering breakpoint pdf

Business process reengineering (BPR) is the practice of rethinking and redesigning the way work is done to better support an organization's mission and reduce costs. Organizations reengineer two key areas of their businesses.

Business process reengineering - Wikipedia

A business process or business method is a collection of related, structured activities or tasks by people or equipment that in a specific sequence produces a service or product (serves a particular business goal) for a particular customer or customers. Business processes occur in all organizational level and it may or may not be visible to customers

Business process - Wikipedia

ABSTRACT. This paper presents an organizational analysis methodology aimed at knowledge capitalization with a view to improving business processes.

Knowledge management for improving business processes: an
