

### **caring for older people pdf**

Old age refers to ages nearing or surpassing the life expectancy of human beings, and is thus the end of the human life cycle. Terms and euphemisms include old people, the elderly (worldwide usage), seniors (American usage), senior citizens (British and American usages), older adults (in the social sciences), and the elders (in many culturesâ€”including the cultures of aboriginal people).

What is Long-Term Care? Individuals need long-term care when a chronic condition, trauma, or illness limits their ability to carry out basic self-care tasks, called activities of daily living (ADLs), (such as bathing, dressing or eating), or instrumental activities of daily living (IADLs) (such as household chores, meal preparation, or managing money).

Geriatrics, or geriatric medicine, is a specialty that focuses on health care of elderly people. It aims to promote health by preventing and treating diseases and disabilities in older adults. There is no set age at which patients may be under the care of a geriatrician, or geriatric physician, a physician who specializes in the care of elderly people. Rather, this decision is determined by ...

1. Introduction. Population aging is a global issue. One concern is a shortage of hospital beds, making it necessary to provide more complex care to the elderly with chronic or comorbid health conditions while they are living at home. At the same time, an aging population also reduces the availability of family caregivers.
