Like Claris EMailer, Claris Home Page hasn't been updated in years, yet it still works every bit as well as it did the day it was last revised. I still use both of these Claris programs daily, even though there are some limitations (EMailer doesn't work with some types of servers and authentication schemes, so I use PowerMail and OS X Mail as well), but they haven't lost any of the abilities that made them so attractive in the first place.

### **Claris Home Page 3.0: Still Irreplaceable? | Low End Mac**

Claris Home Page offers a solution. It is a Web design tool that provides a graphical front-end similar to that of a word processor. Anyone with experience in using word processing can design his/her own Claris Home Pages just by dragging, dropping, and linking.
