1 Abstract“Clinical judgment and decision-making is a required component of professional nursing. Expert nurses are known for their efficient and intuitive decision-making processes, while novice nurses are known for more effortful and deliberate

### **Nursing Clinical Decision Making: A Literature Review**

We will explore why it is necessary to consider the clinical decision making context when examining the ways in which nurses engage with research based information. We will also consider the relation between the accessibility and usefulness of information from different sources and the decisions to which such information is applied.

### **Nurses, information use, and clinical decision making“the**

In the literature the terms clinical reasoning, clinical judgment, problem solving, decision making and critical thinking are often used interchangeably. In this learning package we
