

### **complex spaces in finsler pdf**

In mathematics, a space is a set (sometimes called a universe) with some added structure.. While modern mathematics uses many types of spaces, such as Euclidean spaces, linear spaces, topological spaces, Hilbert spaces, or probability spaces, it does not define the notion of "space" itself.. A space consists of selected mathematical objects that are treated as points, and selected ...

In mathematics, a normed vector space is a vector space over the real or complex numbers, on which a norm is defined. A norm is the formalization and the generalization to real vector spaces of the intuitive notion of distance in the real world. A norm is a real-valued function defined on the vector space that has the following properties: . The zero vector,  $0$ , has zero length; every other ...

The Unit Strong Force in Sphere Theory Granular Spacetime. Authors: Michael John Sarnowski  
Comments: 5 Pages. Sphere Theory is a theory that the universe is made of spheres that are made of spheres perhaps indefinitely.
