

### **compost vermicompost and compost pdf**

Compost (/ ˈkɒmp ɒst / or / ˈkɒmp oʊst /) is organic matter that has been decomposed in a process called composting. This process recycles various organic materials otherwise regarded as waste products and produces a soil conditioner (the compost).. Compost is rich in nutrients. It is used, for example, in gardens, landscaping, horticulture, urban agriculture and organic farming.

### **Compost - Wikipedia**

Compost Tea has become a very popular topic. The following is a quote from Fine Gardening (ref 2): Gardeners all know compost is terrific stuff.

### **Compost Tea provides no real benefits- Garden Myths**

Health and Safety: Materials address health and safety concerns for neighbors and workers including potential exposure to pathogens in compost as well as air emissions from the composting process.

Salts in Soil/Dirt and Compost. SALTS IN SOIL/Dirt is a 'big deal' - because sooner or later, almost all composters - and most gardeners who use compost in gardens will have this issue - sooner for those living in arid and semi-arid locations.

### **The SoilGuy - Salts In Soil-Dirt And Compost**

Generally a batch is completed in around 36 hours but this time can be shortened by pre-feeding the compost or vermicompost to be used. This is outlined in my article More on Compost Tea 2013 along with some basic recipes. The dissolved oxygen (DO<sub>2</sub>) of a finished batch has been over 7 PPM for us with water TDS at around 75 PPM but as high as 9 PPM DO<sub>2</sub>.

In soil science, humus (derived in 1790–1800 from the Latin humus for earth, ground) denominates the fraction of soil organic matter that is amorphous and without the "cellular cake structure characteristic of plants, micro-organisms or animals." Humus significantly affects the bulk density of soil and contributes to its retention of moisture and nutrients.

### **Humus - Wikipedia**

3 Holly-Tone, Bulb-Tone, etc.: mixtures of organics (animal tankage, crabmeal, kelp, and greensand) and inorganics (sulfate of potash, ammonium sulfate) that target specific plant groups. All contain 11-12 micronutrients.
