### **Consensus Statement Improving Work Wear for Healthcare FINAL**

all other countries have one form or another of universal, publicly supported health care. In the United States there are many people who believe that private health care inherently offers people more choice and higher quality than publicly provided health care, and that market competition is the best way to control costs.

### **Chapter 8 Health Care - University of Wisconsin-Madison**

a highly prevalent public health problem with devastating effects on individuals, families and communities. Most Americans are seen at some point by a health care provider, and the health care setting offers a critical opportunity for early identification and even the primary prevention of abuse.

### **National Consensus Guidelines - Futures Without Violence**

Experts rapidly reached consensus on 5 of 19 triggers for concurrent detection of ADEs and consensus on an additional trigger outside the Delphi process. Based on evidence from the modified-Delphi process, it appears that the triggers we developed addressed important ADEs and drug classes and would be likely to perform relatively well in practice.

### **Consensus Building for Development of Outpatient Adverse**

In 2002, NQF published an initial report, Serious Reportable Events in Healthcare, which identified 27 adverse events occurring in hospitals that are serious, largely preventable and of concern to both the public and healthcare providers.
