Contemporary Labor Economics Eleventh Edition Campbell R

Contemporary Labor Economics, represents the "new" labor economics. In the past, study of labor was highly descriptive, emphasizing historical developments, facts, institutions, and legal considerations. Labor markets and unemployment was given some attention, but the analysis was typically minimal.

Contemporary Labor Economics 8th edition (9780077283070

Contemporary Labor Economics 11e presents labor economics as an applied field of micro and macro theory, no longer an area tangential to the core of analytical economics, but rather a critical component of that core. In the Eleventh edition, the authors deliver new and updated discussions of public policy issues and coverage of the current economic crisis, while still integrating traditional topics such as labor law, structure of unions, and collective bargaining.

Contemporary Labor Economics: Campbell R. McConnell

Labor economics is an applied field of micro and macro theory and has become a critical part of the core of analytical economics. This text focuses on the labor economics. It also presents traditional topics such as labor law, structure of unions, and collective bargaining since these issues also play an important role in labor markets.
