Crossing European Boundaries Beyond Conventional

Crossing boundaries in the context of migration is often associated with border crossings, where boundaries are seen merely as demarcating nation states. Yet, migration, like other global phenomena, has become more complex than just leaving one nation-state for another.

Crossing Borders and Shifting Boundaries of Belonging in

Abstract. The articles in this volume represent anthropological approaches to the study of external and internal boundaries in Europe. The authors raise fascinating methodological and empirical questions by approaching European societies from the perspective of a discipline usually working on the basis of greater cultural distance between scholars and the objects of their research.
