culture and health, especially the cultural factors that affect health-improving behaviours, is now crucial. In view of the financial fragility of so many systems of care around the world, and the wastefulness of so much of health-care spending, a line can no longer be drawn between biomedical care and systems of value that

Culture, Behavior, and Health ADNAN ALI HYDER AND RICHARD H. MORROW â€œIf you wish to help a community improve its health, you must learn to think like the people of that community. Before asking a group of people to assume new health habits, it is wise to ascertain the existing habits, how these habits are linked to one another,
