ISSUES IN SPATIAL DATABASES AND GEOGRAPHIC INFORMATION

'Database Issues in Geographic Information Systems' by Nabil R. Adam & Aryya Gangopadhyay is a digital PDF ebook for direct download to PC, Mac, Notebook, Tablet, iPad, iPhone, Smartphone, eReader - but not for Kindle.

Nabil R. Adam & Aryya Gangopadhyay: Database Issues in

Abstract. A review is provided of some database and representation issues involved in the implementation of geographic information systems (GIS).

Database and Representation Issues in Geographic

DATABASES Exploiting Relational Database Technology in GIS Peter Batty All systems for managing data face common problems such as backup, recovery, auditing, security, data integrity and concurrent update. Other challenges include the ability to share data easily between applications and to distribute data across several computers, while continuing to manage

DATABASES Exploiting Relational Database Technology in GIS

13. Resolving ambiguities in the textual specification of spatial data with no errors (or almost none). 14. Determining the geographic focus of a set of documents on a related topic. As the above show, many database and representation issues are involved in ge-ographic information systems that need resolution, thereby forming a vibrant area of research.
