demographic behavior in the pdf

Demographic economics or population economics is the application of economic analysis to demography, the study of human populations, including size, growth, density, distribution, and vital statistics.. Aspects. Aspects of the subject include marriage and fertility; the family; divorce; morbidity and life expectancy/mortality; dependency ratios; migration; population growth

Demographic economics - Wikipedia

Demographic transition (DT) is the transition from high birth and death rates to lower birth and death rates as a country or region develops from a pre-industrial to an industrialized economic system.The theory was proposed in 1929 by the American demographer Warren Thompson, who observed changes, or transitions, in birth and death rates in industrialized societies over the previous 200 years.

Self-actualization isn't about avoiding or treating illness. That's a matter of survival that belongs at the bottom of Maslow's pyramid. And of course there's plenty about self-actualization that isn't health related: ethics, creativity, taste, humor, and more. But for many people, physical, mental and emotional peak performance are a fundamental part of self-actualization.
