Magazine Designing

Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.

For digital content to deliver on its potential, it must be easy to find, shareable, and available for all channels and devices. This requires careful upfront attention to back-end content strategy and its linkages with design and development. However, back-end content strategy is an emerging and complex area of practice with few useful resources for practitioners, and many organizations are ...
