### **Design for Public Policy - MaRS Discovery District**

In view of this, policy making is addressed by combining two separate analytical approaches: multiple criteria decision making (MCDM) and computable general equilibrium (CGE) modeling. The aim is to come up with a methodological framework for policy design which is both operational and consistent with economic theory.

So far there has been little academic research into design in the context of policy making. The question driving this study is what difference a design-based approach makes to policy making. \*Ruth Puttick, Peter Baeck and Philip Colligan, 2014, I-teams. The teams and funds making in-novation happen in governments

around the world.
