application for executive compensation as well. Another explanation for the positive effect of the human capital on compensation is that an executive with a greater amount of human capital is better able to perform his job and, consequently, is paid more. Different studies have found a relationship between executive compensation and organization size.

This study investigates correlates of Chief Executive Officer (CEO) compensation, with particular emphasis on measures of firm performance. An analysis of data from 120 firms in 1977-81 shows that, contrary to the findings of some other studies, CEOs were not given an incentive through compensation to increase the size of the firm at the expense of profit.

The Determinants of Director Compensation ABSTRACT While executive compensation has been studied extensively, relatively little is known about the compensation of outside directors. We attempt to fill this gap by studying the determinants of outside director compensation using a dataset of over 57,000 board positions

from 2006 to 2010.
