To load your app, bring up the apps and extensions management page by clicking the settings icon and choosing Tools > Extensions. Make sure the Developer mode checkbox has been selected. Click the Load unpacked extension button, navigate to your app's folder and click OK .

### **Create Your First App - Google Chrome**

Thinking of creating a website? Google Sites is a free and easy way to create and share webpages.

### **Google Sites**

The Drive platform allows developers to open, import, and export native Google Docs types such as Google Spreadsheets, Presentations, Documents, and Drawings. For instance, if your application is configured to open PDF files, then because Google Documents are exportable to PDF, users will be able to use your application to open those documents.
