2 pages 4-5 introduction pages 6-7 the dimensions of migration pages 8-11 the key role of agriculture and rural development for migration – the root causes of rural migration

Migration, agriculture and rural development

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

The Importance of Play in Promoting Healthy - Pediatrics

UNDP works to eradicate poverty and reduce inequalities through the sustainable development of nations, in more than 170 countries and territories.

Lean IT is the extension of lean manufacturing and lean services principles to the development and management of information technology (IT) products and services. Its central concern, applied in the context of IT, is the elimination of waste, where waste is work that adds no value to a product or service.. Although lean principles are generally well established and have broad applicability ...
