

developmental vascular biology pdf

Developmental biology is the study of the process by which animals and plants grow and develop.

Developmental biology also encompasses the biology of regeneration, asexual reproduction, metamorphosis, and the growth and differentiation of stem cells in the adult organism. In the late 20th century, the discipline largely transformed into evolutionary developmental biology

The chorioallantoic membrane " also called the chorioallantois or abbreviated to CAM " is a vascular membrane found in eggs of some amniotes, such as birds and reptiles. It is formed by the fusion of the mesodermal layers of two developmental structures: the allantois and the chorion. In mammals, this structure forms the placenta.. Three different layers compose the chorioallantoic membrane ...
