Welcome to my website! My name is David Mendosa, and I am a freelance medical writer, advocate, and consultant specializing in diabetes.. Diabetes is a disease that perhaps more than any other depends much more on the patient than on the doctor. Hence, the purpose of this website is to provide you with honest and accurate information to help you manage your diabetes.

### **David Mendosa: Helping Defeat Diabetes Since 1995**

Diabetes is a disease that occurs when your blood glucose, also called blood sugar, is too high. Blood

glucose is your main source of energy and comes from the food you eat. Insulin, a hormone made by the pancreas, helps glucose from food get into your cells to be used for energy. Sometimes your ...

In 2012, the American Diabetes Association (ADA) and the European Association for the Study of Diabetes (EASD) published a position statement on the management of hyperglycemia in patients with type 2 diabetes (1,2). This was needed because of an increasing array of antihyperglycemic drugs and growing uncertainty regarding their proper selection and sequence.

### **Management of Hyperglycemia in Type 2 - Diabetes Care**

Diabetes mellitus (DM), commonly referred to as diabetes, is a group of metabolic disorders in which there are high blood sugar levels over a prolonged period. Symptoms of high blood sugar include frequent urination, increased thirst, and increased hunger. If left untreated, diabetes can cause many complications. Acute complications can include diabetic ketoacidosis, hyperosmolar hyperglycemic ...
