

disorders of the patellofemoral pdf

Magnetic resonance imaging was used to analyse the patellofemoral relationships during the first 30 degrees of knee flexion in women with recurrent patellar dislocation.

Scoring of patellofemoral disorders | Request PDF

People with patellofemoral arthritis who do not respond to nonsurgical treatment may be candidates for a partial knee replacement, also called a patellofemoral joint replacement or unicompartmental knee replacement. This procedure, allows the orthopedic surgeon to replace only the affected area of the knee, the patellofemoral joint, and to leave the healthy medial and lateral compartments intact.

Patellofemoral Disorders: An Overview

Patellofemoral disorders are among the most common clinical conditions managed in the orthopaedic and sports medicine setting. Nonoperative intervention is typically the initial form of treatment for patellofemoral disorders; however, there is no consensus on the most effective

Patellofemoral Disorders: A Classification System and

A new questionnaire was used to evaluate subjective symptoms and functional limitations in patellofemoral disorders. The questionnaire was completed independently by four groups of female subjects: controls (N = 17), and subjects with anterior knee pain (N = 16), patellar subluxation (N = 16), and patellar dislocation (N = 19).
