Distributed simulation in Ada 95 - dl.acm.org

This book presents the proceedings of the Distributed Ada '89 Symposium held at the University of Southampton in December 1989. The objective of the symposium was to provide a platform for developers Read more...

Distributed Ada : developments and experiences

Distributed Ada - Developments and experiences: Authors: Bishop, Judy M. Publication: The Ada Companion Series, Proceedings of the Distributed Ada '89 Symposium, University of Southampton, 11-12 December, 1989, Cambridge: Cambridge University Press, 1990, edited by Bishop, Judy M.

Distributed Ada - Developments and experiences

Abstract. The paper describes the design and implementation methods used by BAeSEMA to support their development, over the last ten years, of very large Distributed Command and Control Systems written in Ada 83.

A decade of development and deployment of distributed Ada

Request PDF on ResearchGate | Distributed Ada-approach and implementation | The task of programming distributed applications in Ada may be addressed in several ways. Most of these require the ...

Distributed Ada : Methodology, Notation, and Tools Greg Eisenhauer Rakesh Jha J. Micheal Kamrad, I1 Honeywell Systems and Research Center Abstract The task of creating software to run on a distributed system brings with it many problems not encountered in a uni-processor environment.

Distributed Ada Methodology, Notation, and Tools - NASA

Distributed Ada: case study R A Volz, P Krishnan and R Theriault The paper describes the design and implementation of a distributed Ada system. Ada is not well defined with respect to distribution, and any implementation for distributed execution must make a number of decisions about the language.

Distributed Ada: case study - Parasol Laboratory

Building Distributed Ada Applications from Specifications and Functional Components Abstract: Durra is a language and support environment for the specification and execution of distributed Ada applications. A Durra programmer describes an application as a collection of processes and data links. More complicated

Building Distributed ADA Applications from Specifications

This document describes an implementation of secure communication for distributed applications in Ada 95. It explains the basics of cryptography and introduces the problem of key exchange. After a brief description of distributed systems in Ada 95, the modular structure of the implementation and the way it handles key distribution is presented.

Building Distributed Ada Applications from Specifications and Functional Components Abstract: Durra is a language and support environment for the specification and execution of distributed Ada applications. A Durra programmer describes an application as a collection of processes and data links. More complicated

OTIC fl Building Distributed Ada Applications

For the development of distributed applications it is necessary to have strategies for modeling the real-time behavior of the Ada components (reusable modules), and also to have tools for analyzing the schedulability of the entire application. Furthermore, in the real-time distributed applications development, we also need to address issues

Modeling and Schedulability Analysis in the Development of

distributed scheme and Section 5 presents an Ada 95 implementation along with more specific details. Section 6 gives an example based on a control application for an industrial production cell that shows how the support for distributed atomic actions can be used in practice.
