Visual thinking, also called visual/spatial learning or picture thinking is the phenomenon of thinking through visual processing.. Visual thinking has been described as seeing words as a series of pictures. [citation needed] It is common in approximately 60-65% of the general population. "Real picture thinkers", those who use visual thinking almost to the exclusion of other kinds of thinking ...

What is e-Learning? e-Learning is the employment of technology to aid and enhance learning. It can be as simple as High School students watching a video documentary in class or as complex as an entire university course provided online. e-Learning began decades ago with the introduction of televisions and over-head projectors in classrooms and has advanced to include interactive computer ...
