Plato's Psychology The dialogues of Plato allegedly do no more than report the teaching of Socrates, but much of what is found in these works is surely Plato's own invention. Their composition spans a period of years such that one must distinguish between the early, the middle, and the late works, with sometimes dramatic departures found ...

Plato's Psychology - History Of Psychology - IResearchNet

Education on the other hand is the dynamic side of philosophy. It is the active aspect and the practical means of realising the ideals of life. Education is a sacred necessity of life, both from the biological and sociological point of view. It is true that education works like a catalyst for a better life, a social desirable life.

Relationship between Education and Philosophy in the

Plato's Academy, a more positive starting point for the development of rhetoric as an art worthy of systematic, scientific study. The Rhetoric was developed by Aristotle during two periods when he was in Athens, the first, from 367 to 347 BC (when he was seconded to Plato in the Academy), and the second, from 335 to 322 BC (when he was running his

Aristotle's Rhetoric - RhetInfo

Plato (437-347) was Socrates' prized student. From a wealthy and powerful family, his actual name was Aristocles -- Plato was a nickname, referring to his broad physique. When he was about twenty, he came under Socrates' spell and decided to devote himself to philosophy.

Jean-Jacques Rousseau remains an important figure in the history of philosophy, both because of his contributions to political philosophy and moral psychology and because of his influence on later thinkers.

Jean Jacques Rousseau (Stanford Encyclopedia of Philosophy)

theorists have carried out a debate on how people learn that began at least as far back as the Greek philosophers, Socrates (469 – 399 B.C.), Plato (427 – 347 B.C.), and Aristotle (384 – 322 B.C). The debates that have occurred through the ages reoccur today in a variety of viewpoints about the purposes of education and about how to encourage

#1 Introduction – How people learn

represent Plato as the father of Idealism, who is not to be measured by the standard of utilitarianism or any other modern philosophical system. He is the poet or maker of ideas, satisfying the wants of his own age, providing the instruments of thought for future generations. He is no dreamer, but a great philosophical genius struggling with

PLATO - Cakravartin

Plato's Epistemology and the Theory of the Forms One way we can think about Plato's theory is as a response to some of the philosophical problems raised by the Presocratics: the problem of the one and the many, the problem of appearance and reality, the problem of change. Heraclitus and Parmenides were both concentrating

Plato's Epistemology and the Theory of the Forms

Educational psychology is the branch of psychology concerned with the scientific study of human learning. The study of learning processes, from both cognitive and behavioral perspectives, allows researchers to understand individual differences in intelligence, cognitive development, affect, motivation, self-regulation, and self-concept, as well as their role in learning.

Educational psychology - Wikipedia

In the middle dialogues, Plato is coming into his own as a philosopher and is starting to develop some of his own metaphysical and epistemological positions. It is during this period that Plato begins to introduce his theory of the forms into his writings. In the late dialogues, Plato uses Socrates almost exclusively to advance his own views.

Al-Farabi: "The Philosophy of Plato and Aristotle"

Plato's thinking has significant implications for ideas about education and knowledge. According to Plato, to be morally good is to possess true knowledge. But the process of acquiring true knowledge is painful, because most of us are chained to the world of the senses, unable to look beyond. Clear-sightedness and knowledge

Chapter 1 Philosophy of education

question, because, after all, isn't psychology the study of behavior and mental processes? And if so, isn't that all about human nature, or even about what it means to be human? But ideas about human nature are as much in the realm of philosophy as in psychology, and probably, in fact, more a concern of the former than the latter.

3. The Nature of Human Nature: Philosophical Perspectives

Philosophy of psychology has contributed to this endeavor by helping to clarify the notion of a module. Philosophers have also debated whether modularity, if it is true, forces us to abandon traditional views about the transparency of the mental and to

PHILOSOPHY OF PSYCHOLOGY final draft

Plato's psychology has it that the soul pre-existed the body and it continuous to exist at the demise of the body and that the soul has independent existence of the body. Aristotle, bearing the weaknesses of Plato's psychology in mind, decides to put in his say on psychology.

The Contributions of Aristotle to the Development of

Using Plato's human psychology to construct education for self-realization is to realize the nature of society, the nature of man, and the nature of knowledge as envisaged by FRN (2004).

Constructing Education for Self-Realization on the Basis

By doing that, Plato removed education from informality to formality and that is the greatest contribution of Plato to education. Eventually, Plato's system of education was adopted in the whole of Greece and then from Greece to the rest of Europe and when Europeans went to America they took it there.
