Educational equity, also referred to as equity in education, is a measure of achievement, fairness, and opportunity in education. The study of education equity is often linked with the study of excellence and equity. Educational equity depends on two main factors. The first is fairness, which implies that factors specific to one's personal conditions should not interfere with the potential of ...

MOST is UNESCOâ€™s intergovernmental science programme on social transformations. MOST works with governments, social and human science communities and civil societies to improve connections between knowledge and action, connections that are one key to positive social change.

Management of Social Transformations (MOST) Programme

Context Migration trends in the Americas. Migration is not a new phenomenon, despite its seemingly sudden rise to global attention. The movement of people, whether within country borders or across international borders, has been occurring for centuries and has recently become a major feature of globalization.

Education has a vital role to play in developing the knowledge, skills, attitudes and values that enable people to contribute to and benefit from an inclusive and sustainable future.

The fuTure of educaTion and skills

Due to the sensitivity of the subject, it is often preferable that mental health practitioners use the term behavioral health rather than mental illness. Furthermore, it is difficult for health practitioners to gain trust from their patients; therefore, mental health practitioners in Vietnam often use placebo medication to gain the trust of their patient and meet the patient's expectations.
