

environment education global issues pdf

The Global Environment Outlook (GEO) is often referred to as UN Environment's flagship environmental assessment. The first publication was in 1997 and was originally requested by Member States. It is a flagship report because it fulfills the core functions of the organization, which date back to the UN General Assembly resolution that established the UN Environment Programme in 1972.

Global Environment Outlook | UN Environment

A biophysical environment is a biotic and abiotic surrounding of an organism or population, and consequently includes the factors that have an influence in their survival, development, and evolution. A biophysical environment can vary in scale from microscopic to global in extent. It can also be subdivided according to its attributes. Examples include the marine environment, the atmospheric ...
