not know ... Nature and environment are commonly used terms for the ecology.

BASIC CONCEPTS : NATURE, ECOLOGY, ENVIRONMENT

The environment may be viewed as an emerging property of the man-nature relation, a field of reciprocal transformation of the human by the natural; and of the natural by the human . 2 . A very brief review of attitudes toward nature and the environment

The man-nature relationship and environmental ethics

An environmental problem arises whenever there is a change in the quality or quantity of any environmental factor which directly or indirectly affects the health and well-being of man in an adverse manner.

5. Environmental problems 5.1. INTRODUCTION

Nature has been given to man as a trust and nothing more. His right of domination over it (is) only by virtue of his theomorphic make up, not as a rebel against nature. (Nasr. S.H.

Man and Ecology: Towards an Ethic of Environment Trustees

The relationship between humans and the environment/nature, or rather, the relationship between humankind and its natural habitat, is a matter which, in order to be dealt with, even briefly, requires some idea of myths, traditions, religions, cultures and philosophical, political and

The human-nature relationship The emergence of

The relationship between the man and the environment has been established in the early periods itself. Human beings live in the kingdom of nature and interact with it constantly. The influence of nature in the form of the air he breathes, the water he drinks, the food he eats, and the flow of energy and information. ...

Venue : Seminar Hall, Achutha Menon Centre for Health

It is the common understanding of natural environment that underlies environmentalism a broad political, social, and philosophical movement that advocates various actions and policies in the interest of protecting what nature remains in the natural environment, or restoring or expanding the role of nature in this environment.
