including evidence-based practice, evidence-based nursing, evidence-based guidelines, evidence-based decision-making, evidence-based policy-making and evidence-informed patient choice, to name but a few. Whilst the epistemological integrity of such concepts has been questioned (French

What counts as evidence in evidence-based practice?

Evidence-based practice is not new, but it is changing rapidly in many areas. We have long heard that it can take 12 to 17 years for research to reach the bedside and become a part of our practice. The seemingly rapid adoption and promotion of evidence-based care is one that is aimed at closing this gap.
