

experiences from participatory forest pdf

Participatory planning is an urban planning paradigm that emphasizes involving the entire community in the strategic and management processes of urban planning; or, community-level planning processes, urban or rural. It is often considered as part of community development. Participatory planning aims to harmonize views among all of its participants as well as prevent conflict between opposing ...

Participatory planning - Wikipedia

Imagine looking at an object not for its artistic or historical significance but for its ability to spark conversation. Every museum has artifacts that lend themselves naturally to social experiences.

Chapter 4: Social Objects – The Participatory Museum

Participatory action research (PAR) is an approach to research in communities that emphasizes participation and action. It seeks to understand the world by trying to change it, collaboratively and following reflection. PAR emphasizes collective inquiry and experimentation grounded in experience and social history.
