exponentially convergent algorithms for pdf

Frontiers in Mathematics Advisory Editorial Board Leonid Bunimovich (Georgia Institute of Technology, Atlanta) Benoît ...

Exponentially Convergent Algorithms for Abstract

This book presents new accurate and efficient exponentially convergent methods for abstract differential equations with unbounded operator coefficients in Banach space.

Exponentially Convergent Algorithms for Abstract

A new exponentially convergent algorithm for such problems is proposed. This algorithm is based on a generalization of the Duhamel's integral for vector-valued functions which allows to translate the initial problem into a boundary integral equation and then

Exponentially convergent Duhamel's like algorithms for di

An exponentially convergent approximation to the solution of a nonlinear first order differential equation with an operator coefficient in Banach space is proposed.

AN EXPONENTIALLY CONVERGENT ALGORITHM FOR NONLINEAR

Request PDF on ResearchGate | On Jan 1, 2011, Ivan Gavriluk and others published Exponentially Convergent Algorithms for Abstract Differential Equations

Exponentially Convergent Algorithms for Abstract

We propose and justify an exponentially convergent algorithm for a second order differential equation with an operator coefficient in Banach space. A particular example of such equation is the strongly

Exponentially convergent algorithm for a second order di

PDF | We discuss methods to obtain exponentially convergent algorithms for functions of an operator, especially for solution operators of abstract differential equations which are the meta-models ...

Three recipes for constructing of exponentially convergent

Exponentially convergent data assimilation algorithm for Navier-Stokes equations Jason Franky, Tigran T. Tchakianz, and Sergiy Zhukx Abstract. The paper presents a new state estimation algorithm for a bilinear equation representing the Fourier-

Exponentially convergent data assimilation algorithm for

The Kaczmarz method for solving linear systems of equations is an iterative algorithm that has found many applications ranging from computer tomography to digital signal processing.

A randomized Kaczmarz algorithm with exponential convergence

Exponential convergence of approximations to differential equations with unbounded operator coefficients plays a crucial role to obtain algorithms of optimal or near optimal complexity [9, 14 ...

Three recipes for constructing of exponentially convergent

Exponential convergence of Langevin distributions and their discrete approximations GARETH O. ROBERTS 1 * and RICHARD L. TWEEDIE 2 1 Statistical Laboratory, Department of Pure Mathematics and Mathematical

Exponential convergence of Langevin distributions and

AN EXPONENTIAL CONVERGENT ALGORITHM FOR NONLINEAR DIFFERENTIAL EQUATIONS IN BANACH SPACES
 $3 \times y \text{ f a } 0 \text{ b } 0 \text{ y} = (\tan f) * x \text{ x}^2 / a \text{ } 0 \text{ } 2 - y^2 / b \text{ } 0 \text{ } 2 = 1$ Figure 1. Spectral characteristics of the operator A. and on its boundary and outside of the sector the following estimate for the

AN EXPONENTIAL CONVERGENT ALGORITHM FOR NONLINEAR

arxiv:1312.7061v1 [math.pr] 26 dec 2013 exponentially convergent algorithm to generate random points in a d -dimensional body
benoit collins, termeh kousha, rafal kulik, tomasz szarek,

EXPONENTIALLY CONVERGENT ALGORITHM TO GENERATE RANDOM

An exponentially convergent adaptive algorithm for time-varying IIR filters
Abstract: Conditions for exponential stability are established for a class of adaptive algorithms that estimate the parameters of a time-varying linear filter using a basis function approach.

An exponentially convergent adaptive algorithm for time

A Stochastic PCA and SVD Algorithm with an Exponential Convergence Rate algorithm also performs a type of power iteration, followed by adding a stochastic term zero-mean term.
