William Boddy, Fifties Television: The Industry and Its

Fifties Television is not just another historical analysis of television, nor is it simply a review of criticism aimed at the industry. It is a fascinating assessment of the economics behind television's shift from live to filmed programming and the politics at work between the government and the networks.

Bookshelf: Fifties Television, The Industry and Its

and anywhere is now the mainstream. Ironically, TV Everywhere (TVE) is often now just TV Next To The TV • watched on mobile and connected TV (CTV) devices within the home. Viewers are diverging while platforms are converging. That poses daunting challenges for the industry as it looks for new ways to meet consumer desires.
