textbooks on food microbiology, food engineering, food chemistry, and other more specialized topics, choices in food physical chemistry are severely limited. The publication of Pieter Walstra's excellent textbook on food physical chemistry is therefore an event of major importance to the field of food science.

Description : Chemistry, Flavor, and Texture of Lipid-Containing Foods discusses the chemistry and functionality of fat in food sensory perception, and the underlying physicochemical and physiological properties and processes. Fats and oils profoundly affect our sensory perception and appreciation of foods.
