found in the Northeastern United States use early suc-cessional habitat. In early successional communities, ... Early successional habitat occurs in a forest after a disturbance such as a fallen tree, wind, or fire. This stage in forest land lasts only briefly; however, as the ... Wildlife. pdf, ...

### **Early Successional Habitat - USDA**

Plant communities are groups of plants sharing a common environment that interact with each other, animal populations, and the physical environment. As plant communities tend to co-occur on the landscape due to shared environmental requirements, they provide a valuable framework for organizing biological information creating mappable units for land management and conservation planning.
