Full-potential electronic structure of Hf₂AlC and Hf₂AlN

This is a book describing electronic structure theory and application within the framework of a methodology implemented in the computer code RSPt. In 1986, when the code that was to become RSPt was developed enough to be useful, it was one of the first full-potential, all-electron, relativistic

The Full-Potential Electronic Structure Problem and RSPt Abstract The full-potential methodology is presented in this chapter, with details of how the non-spherical electron density and potential are expanded in the muffin-tin regions, as well as the interstitial region. Details in the implementation of the
