Research in these applications of game theory is the topic of recent conference and journal papers (see, for example, Binmore and Vulkan, “Applying game theory to automated negotiation,” Netnomics Vol. 1, 1999, pages 1–9) but is still in a nascent stage.

Game Theory - London School of Economics

Game theory is the study of multiperson decision problems. Such problems arise frequently in economics. As is widely appreciated, for example, oligopolies present multiperson problems—each firm must consider what the others will do. But many other applications of game theory arise in fields of economics other than industrial organization.
