

gender and difference in pdf

The social construction of gender is a notion in feminism and sociology about the operation of gender and gender differences in societies. According to this view, society and culture create gender roles, and these roles are prescribed as ideal or appropriate behavior for a person of that specific sex.. Some supporters of this idea argue that the differences in behavior between men and women ...

Social construction of gender - Wikipedia

Gender is the range of characteristics pertaining to, and differentiating between, masculinity and femininity. Depending on the context, these characteristics may include biological sex (i.e., the state of being male, female, or an intersex variation), sex-based social structures (i.e., gender roles), or gender identity. Traditionally, people who identify as men or women or use masculine or ...
