International Journal of Granular Computing, Rough Sets

Granular computing concerns a particular human-centric paradigm of problem solving by means of multiple levels of granularity and its applications in machines. It is closely related to Artificial Intelligence (AI) that aims at understanding human intelligence and its implementations in machines.

Artificial Intelligence Perspectives on Granular Computing

not hard to imagine how by combination of granular computing and an intelligent transportation system, using the method and theory of granular computing to solve the problems and methods in the intelligent transportation systems.

Granular Computing in Intelligent Transportation: An

Granular Computing is about formation, processing and communicating information granules. Aims The Journal of Granular Computing provides a rapid dissemination of timely and important results. The aim is to bring recent advances in the dynamically expanding area including its fundamentals, algorithmic

developments, and applications.

Granular Computing Approach for Intelligent Classifier Design

An emerging discipline, granular computing focuses on formalizing information granules and unifying them to create a coherent methodological and developmental environment for intelligent system design and analysis.
